Price-List of Plants on Application
LANDSCAPE ARCHITECTURE IS MY SPECIALTY
CONSTRUCTIONAL GARDENER

HAVING obtained a practical knowledge as a Nurseryman and a Plantsman having served an apprenticeship, Journeyman, Superintendent, in the finest Gardens in Europe, having received Diplomas for Horticulture, from the Royal Horticultural Society, South Kensington, London.

Also having an architectural training for construction in Landscape Art which this Booklet is given to aid me out in what I am saying about myself, as the Illustrations are of no practical value. Only to convey an Idea how I make some of my Plans before constructed as a design.

TO CORRESPONDENCE

I make and furnish Plans for newly built Suburban Homes to plant out, and new Estates, Private and Public, and additional improvements for Old Estates. I Furnish estimates for Planting and building Pergolas, Pavilions, Bridges, and every requisite for the garden.

SURVEYS

I prefer where there is an opportunity to make the Survey for a lay out of the ground as it is very important to know something of the nature of the Soil as we have Eight Classifications the new School may have more, but Eight will do for to grow Plants in, if we have Rain and the Water Sprinkler and Hose.

PLANTING

Spring and Fall are the two Best Seasons, but the Spring is sometimes of such short duration, much planting is left undone, so fall planting for Deciduous Trees and Shrubs do quite as well.

SUMMER

We are all familiar with what can be done in Summer not in WINTER

There is much which can be done besides pruning and tree Surgery, building Rock Gardens, making Ponds, building Bridges, Pavilions and much for the garden.

I AM SOLICITING YOUR PATRONAGE

To beautify your Home, and if you will write to me or call me on the Phone, I will make an appointment with you, as I am Qualified for to do Architectural Landscape work as good as any.
